JAVASCRIPT BACKEND DEVELOPMENT

Table Of Content

- STATIC ? FRONTEND ? 
- HYPER TEXT MARKUP LANGUAGE (HTML) 
- CASCADING STYLE SHEETS (CSS) 
- LABS: LET'S CODE TOGETHER 
- TIPS / RESSOURCES 

WHAT WE MEAN BY STATIC WEBSITE ?

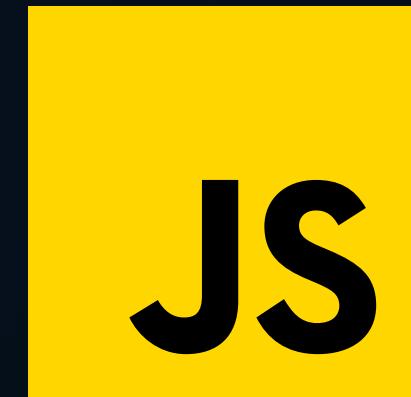

The screenshot shows a static website with the following elements:

- Header:** A dark header bar with the "CIT WEB" logo on the left and a "Tips & Tricks" button with a purple glow effect on the right.
- Navigation:** A horizontal menu bar with links: Home, Introduction, Team, Testimonials, and Contacts.
- Message:** A dark callout box containing a blue gear icon and the text "registration has ended, Stay tuned !!".
- Main Content:** Large text reading "The CIT Web Cell. Here for everyone." with "Web Cell." in a purple gradient.
- Call-to-Action:** A circular button labeled "Get Started" with a small orange arrow icon.
- Image:** A portrait of a young man with a beard, wearing a light-colored jacket, positioned on the right side of the main content area.
- Background:** A dark background with a subtle network-like pattern of glowing blue and purple lines and dots.

STATIC WEBSITES APPEAR THE SAME FOR EVERY USER !!

WHAT DO I NEED TO KNOW TO BUILD A STATIC WEBSITE?

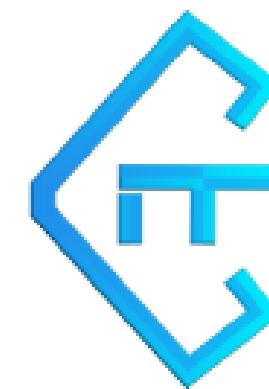

HTML

Welcome to the Web Cell by CIT

Hi, everyone this text will be hidden and shown once in a while
